PROFILE

I am a passionate web developer with a passion for coding and a knack for transforming ideas into responsive and dynamic websites. Strong in both frontend and backend tasks, with a focus on writing maintainable code and delivering smooth user experiences. Team player with an eye for detail.

WORK EXPERIENCE

Peak Voyage Pvt. Ltd.

OCT 2, 2024 - APR 2 2025

Software Engineer Intern

- Worked on CORVUS - A Chat Interface designed to surpass existing solutions by offering advanced functionalities and customizations tailored to organizational use.
- Focused on frontend development using NEXTJS
- Responsible for building and integrating WebSocket functionalities using JavaScript and TypeScript

PERSONAL PROJECTS

TechShop tech-shopp.netlify.app

- TechShop is a FullStack ecommerce website that I developed during my journey of mastering the MERN stack.
- Realtime OTP verification & JWT for authentication

Weather App weatherify-forecast.netlify.app

- Developed using React.js and Tailwind CSS for a modern and responsive user interface.
- Integrates the Open-Meteo API to provide real-time weather information.
- Utilizes the Geoapify API to fetch latitude and longitude coordinates based on user input.

Portfolio Site nayandeep-shrestha.vercel.app

- Developed entirely using React.js with custom CSS, my portfolio site demonstrates proficiency in frontend development.
- Prioritizing user experience, the site features a responsive design that adapts seamlessly to different screen sizes.

PASA Design Studio pasadesigns.com

- PASA is a contemporary website designed for an architecture company built on WORDPRESS.
- To elegantly showcase the firm's projects, work culture, and key company information.
